## INDEPENDENT AUDITOR'S REPORT

Board of Supervisors Burlington County Soil Conservation District Columbus, New Jersey

## **Report on the Financial Statements**

We have audited the accompanying statement of financial position of the Burlington County Soil Conservation District, County of Burlington, State of New Jersey, as of June 30, 2017, and the related statement of activities and changes in net position and statement of cash flows for the year then ended, and the related notes to the financial statements.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the New Jersey Department of Agriculture's Financial Accounting Manual; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements prescribed by the New Jersey Department of Agriculture's Financial Accounting Manual, as required by the New Jersey State Soil Conservation Committee. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions

## Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principals

As described in Note 1 of the financial statements, the financial statements are prepared by the District on the basis of the financial reporting provisions of the New Jersey Department of Agriculture's Financial Accounting Manual, which is a basis of accounting other than accounting principles generally accepted in the United States of America, as required by the New Jersey State Soil Conservation Committee.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

## Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the Burlington County Soil Conservation District, as of June 30, 2017, or the results of its operations and changes in net position and its cash flows for the year then ended.

## **Opinion on Regulatory Basis of Accounting**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Burlington County Soil Conservation District, as of June 30, 2017, and the changes in net position and its cash flows for the year then ended in accordance with the financial provisions of the New Jersey Department of Agriculture's Financial Accounting Manual.

## **Other Matters**

## Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Burlington County Soil Conservation District's financial statements as a whole.

The accompanying supplementary information such as the schedule of budget versus actual expenditures, schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis and are not a required part of the financial statements.

The accompanying supplementary schedules of expenditures of budget versus actual expenditures and schedule of expenditures of federal awards and state assistance are presented for purposes of additional analysis as required by the New Jersey Department of Agriculture's Financial Accounting Manual. These schedules were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subject to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America and the audit requirements as prescribed by the New Jersey Department of Agriculture's Financial Accounting Manual. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

## **Report on Summarized Comparative Information**

The financial statements as of June 30, 2016, were audited by other auditors whose report dated August 19, 2016 expressed an unmodified opinion on the regulatory basis of accounting as prescribed by the New Jersey Department of Agriculture's Financial Accounting Manual.

## Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 18, 2017, on our consideration of the Burlington County Soil Conservation District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Burlington County Soil Conservation District's internal control over financial reporting and compliance.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Supervisors Burlington County Soil Conservation District Columbus, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and audit requirements as prescribed by the New Jersey Department of Agriculture's Financial Accounting Manual, the financial statements-regulatory basis of the Burlington County Soil Conservation District, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Burlington County Soil Conservation District's basic financial statements, and have issued our report thereon dated September 18, 2017. Our report indicated that the District's financial statements were not prepared and presented in accordance with accounting principles generally accepted in the United States of America but rather prepared and presented in accordance with the regulatory basis of accounting prescribed by the New Jersey Department of Agriculture's Financial Accounting Manual.

## **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Burlington County Soil Conservation District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Burlington County Soil Conservation District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Burlington County Soil Conservation District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Burlington County Soil Conservation District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Notes to Financial Statements For the Years Ended June 30, 2017

## Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## **Description of Financial Reporting Entity**

Burlington County Soil Conservation District is one of fifteen Districts in the state of New Jersey under the auspices of the New Jersey Department of Agriculture. Each District is governed by a Board of Supervisors, which sets policies and performance guidelines. The Districts work closely with the U.S. Soil Conservation Service to promote the wise use of soil and water resources. In 1976, the Districts in New Jersey were mandated to administer Chapter 251, The Soil Erosion And Sediment Control Act of 1976, the objective of which was to prevent erosion and sedimentation from development sites, mitigate impacts to soil resources and enhance soil quality.

## **Organization**

The District is a governmental subdivision of the State of New Jersey, and a public body corporate and politic, located in the Township of Springfield, County of Burlington. It was organized in 1959 in accordance with the provisions of the Soil Conservation Act, N.J.S.A. 4:24 et seq.

The supervisors serve staggered three-year terms with the nominations made by an open public forum and the appointments of the nominees are made by the State Soil Conservation Committee each June on a rotating basis.

## **Financial Statement Presentation**

The District is required to report information regarding its financial position and activities according to three classes of assets, which are Unrestricted Net Position, Temporarily Restricted Net Position and Permanently Restricted Net Position. Unrestricted Net Position can be expended by the District for any aspect of its operations and at any time, as determined by management. Temporarily Restricted Net Position are either restricted as to a specific program, a specific time period or both, but will eventually be expended by the District. Permanently Restricted Net Position can never be expended, but benefit the District through investment earnings on such assets. As of June 30, 2017, the District had only Unrestricted and Temporarily Restricted Net Position.

## **Basis of Accounting**

The accounting policies of the District conform to practices prescribed by the New Jersey Department of Agriculture's Financial Accounting Manual.

All of the District's funds are accounted for using the accrual basis of accounting. Support and revenue are recognized when they become measurable and available as net current assets. Expenditures are recognized when the related fund liability is incurred. Chapter 251 revenue is recognized when received and Chapter 251 expenses are recognized when incurred.

The accounts of the District shall be organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise the assets, liabilities, Net Position, support, revenue and expenditures. Fixed asset purchases are to be recorded in the fund of acquisition, with an appropriate transfer to the equipment fund. Accumulated depreciation is reported on the statement of financial position.

Notes to Financial Statements For the Years Ended June 30, 2017

## Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## **Property, Plant and Equipment Fund**

Capital Assets acquired or constructed during the year are recorded at cost and reflected as expenditures in the applicable governmental fund. Donated assets are valued at their estimated fair market value on the date received. Capital Asset acquired is transferred into the Property, Plant and Equipment fund. Depreciation is computed using the straight-line method based on the estimated useful lives of the related assets as listed below:

Equipment5 YearsFurniture10 YearsLand Improvements15 YearsBuilding and Improvements40 Years

## **Amortization of Financing Costs**

Financing costs, if any, are amortized over the term of the loan using the straight-line method.

## **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosures at the date of the financial statements and the reported amounts of revenue and expenditures. Accordingly, actual results may differ from those estimates.

## Reclassifications

Certain amounts previously reported in the prior year financial statements have been reclassified to conform to current year classifications. These reclassifications had no effect on the total Net Position of the District.

## **Comparative Data**

Comparative total data for the prior year has been presented in selected sections of the accompanying financial statement in order to provide an understanding of the changes in the district's financial position and operations.

## **Support and Expenses**

Contributions and restricted grant revenues are measured at their fair values and are reported as an increase in Net Position. The district reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets, or if they are received with donor stipulations that limit the use of the donated assets, or if they are designated as support for future periods. When a donor or grantor restriction expires, that is, when a stipulated time restriction ends, or purpose is satisfied, temporarily restricted Net Position are reclassified to unrestricted Net Position and reported in the statement of activities as Net Position released from restrictions.

## **Unearned Revenue**

Unearned Revenue represents restricted revenue that has been received but not yet earned. District Management reviews the status of Unearned Revenue on an ongoing basis.

## Notes to Financial Statements For the Years Ended June 30, 2017

## **Note 2: NON-CASH SUPPORT**

Non-cash support consisting of payroll, fringe benefits, travel and per diem expenses, postage, printing, supplies and indirect support, provided by the federal and state governments to assist in the operations of the District, is as follows:

			Total
	Federal	State	June 30, 2017
Indirect Support	\$ -	\$ 30,000	\$ 30,000
Salaries	244,667	-	244,667
Fringe Benefits	87,890	-	87,890
Rent, Telephone and Other	52,603	-	52,603
Totals	\$385,160	\$ 30,000	\$ 415,160

## Note 3: RESERVE FOR FUTURE SOIL EROSION AND SEDIMENT CONTROL EXPENDITURES

The Reserve for Future Soil Erosion and Sediment Control Act Expenditures is established to identify the funds available for the costs of future expenditures on projects currently received and in progress, for which fees under the act have been previously collected.

All fees collected from applicants are restricted to the Chapter 251 program and used only for implementing that program. The reserve balance includes the unexpended initial review / certification / inspection fees and supplemental fees received. At the option of the District Board and pursuant to formal action by the District Board, interest income from reserve balances may be utilized for the Chapter 251 program or for the District education program. Use of interest income is authorized by N.J.A.C. 2:90-1.12 and pursuant to policy approval by the State Soil Conservation Committee on September 13, 2007. The certification fees collected by the District are derived from an adopted fee schedule that was effective starting August 1, 2010. On April 15, 2010, a \$25 increase was approved for State Administration fees.

Prior to the 2015-16 year, this reserve was limited to a calculation involving certification fees collected during the current and two preceding years, multiplied by certain percentages per year. However, in August 2015, the District adopted a revised Financial Accounting Manual, which no longer utilizes this calculation. As such, the June 30, 2017 Reserve for Future Soil Erosion and Sediment Control Act Expenditures was \$1,397,791, as compared to \$1,334,077 in the prior year. A transfer from Unrestricted to Temporarily Restricted Chapter 251 Reserve in the amount of \$53,501 was needed in order to satisfy the reserve for active projects.

## Note 4: RESERVE FOR FUTURE LEGAL COSTS

The Reserve for Future Legal Costs provides the District with funds necessary to pay for estimated future legal costs incurred as a result of current Chapter 251 operations. The balance in the reserve as of June 30, 2017 is \$150,000.

Notes to Financial Statements For the Years Ended June 30, 2017

## **Note 5: RENEWAL AND REPLACEMENT FUND**

The District has established a Renewal and Replacement Fund to provide a Reserve for Capital Improvements in the amount of \$250,000 and a Reserve for Maintenance Costs in the amount of \$150,000. The purpose of these reserves is to meet the future repair costs of the existing facility, as well as, fund the desired addition to the building.

## Note 6: CASH AND CASH EQUIVALENTS

The District is responsible to designate and approve a list of authorized depository institutions based on their evaluation of each financial institution. Cash may consist of demand deposits and temporary investments in the form of certificates of deposit held at financial institutions. For purposes of the statement of cash flows, the Burlington County Soil Conservation District considers highly liquid investments with an initial maturity of three months or less to be cash equivalents.

## Note 7: CONCENTRATION OF CUSTODIAL CREDIT RISK

Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be recovered. Although the District does not have a formal policy regarding custodial credit risk, NJSA 17:9-411 seq. requires that the governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA is a supplemental insurance program set forth by the New Jersey Legislature to protect the deposits of local government agencies. The program is administered by the Commissioner of the NJ Department of Banking and Insurance. Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by FDIC. Funds owned by the District in excess of FDIC insured amounts are protected by GUDPA. As of June 30, 2017, the District's bank balance of \$2,403,564 was exposed to custodial credit risk as follows:

Insured by FDIC <u>\$2,403,564</u>

\$2,403,564

## **New Jersey Cash Management Fund**

All investments in the Fund are governed by the regulations of the Investment Council, which prescribe specific standards designed to insure the quality of investments and to minimize the risks related to investments. In all the years of the Division of Investment's existence, the Division has never suffered a default of principal or interest on any short-term security held by it due to the bankruptcy of a securities issuer; nevertheless, the possibility always exists, and for this reason a reserve is being accumulated as additional protection for the "Other-than-State" participants. In addition to the Council regulations, the Division sets further standards for specific investments and monitors the credit of all eligible securities issuers on a regular basis. As of June 30, 2017, the District had \$71,253 on deposit with the New Jersey Cash Management Fund.

Notes to Financial Statements For the Years Ended June 30, 2017

## Note 8: DEFERRED COMPENSATION SALARY ACCOUNT

The District offers it employees a Deferred Compensation Plan in accordance with Internal Revenue Code Section 457, which has been approved by the Director of the Division of Local Government Services. The Plan, available to all full time employees at their option, permits employees to defer a portion of their salary to future years. The deferred compensation is not available to participants until termination, retirement, death or unforeseeable emergency.

## **Note 9: CONTINGENT LIABILITIES**

Per confirmation by the Burlington County Soil Conservation District's legal counsel, there are no pending litigations, claims, assessments, unasserted claims, or contingent liabilities against the District, which are considered material.

## **Note 10: OPERATING LEASES**

At June 30, 2017, the District had an operating lease agreement for one copy machine. Future minimum lease payments are as follows:

	<u>Amount</u>
Year ending June 30,	
2018	\$ 1,133
2019	1,133
Total future minimum lease payments	\$ 2,266

## **Note 11: PENSION OBLIGATIONS**

## A. Public Employees' Retirement System (PERS)

**Plan Description -** The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at <a href="https://www.state.nj.us/treasury/pensions/annrprts.shtml">www.state.nj.us/treasury/pensions/annrprts.shtml</a>.

The vesting and benefit provisions are set by *N.J.S.A.* 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55<sup>th</sup> of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service

Notes to Financial Statements For the Years Ended June 30, 2017

## **Note 11: PENSION OBLIGATIONS (continued)**

retirement benefits of 1/60<sup>th</sup> of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 or more years of service credit before age 62 and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Basis of Presentation - The schedules of employer allocations and the schedules of pension amounts by employer (collectively, the Schedules) present amounts that are considered elements of the financial statements of PERS or its participating employers. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of PERS or the participating employers. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of PERS to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Contributions - The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For the fiscal year 2016, the State's pension contribution was less than the actuarial determined amount. The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

Components of Net Pension Liability - At June 30, 2017, the District reported a liability of \$931,868 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2016. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of July 1, 2015, which was rolled forward to June 30, 2016. The District's proportion of the net pension liability was based on the District's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2017. The District's proportion measured as of June 30, 2016, was .003146%, which was an increase of .000164% from its proportion measured as of June 30, 2015.

## Notes to Financial Statements For the Years Ended June 30, 2017

## **Note 11: PENSION OBLIGATIONS (continued)**

Collective Balances at June 30, 2017 & June 30, 2016

June 30, 2016	5.57	5.57

**Actuarial Assumptions** - The total pension asset/(liability) as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

## Notes to Financial Statements For the Years Ended June 30, 2017

## **Note 11: PENSION OBLIGATIONS (continued)**

**PERS** 

Inflation 3.08%

Salary Increases:

Through 2026 1.65% - 4.15% Based on Age
Thereafter 2.65% - 5.15% Based on Age

Investment Rate of Return 7.65%

Mortality Rate Table RP-2000

Period of Actuarial Experience Study upon which Actuarial

Assumptions were Based July 1, 2011 - June 30, 2014

Pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rate were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on the mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scales. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.65% at June 30, 2016) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected

Notes to Financial Statements For the Years Ended June 30, 2017

## **Note 11: PENSION OBLIGATIONS (continued)**

inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2016 are summarized in the following table:

		Long-Term
	Target	<b>Expected Real</b>
Asset Class	<b>Allocation</b>	Rate of Return
Cash	5.00%	0.87%
U.S. Treasuries	1.50%	1.74%
Investment grade credit	8.00%	1.79%
Mortgages	2.00%	1.67%
High Yield Bonds	2.00%	4.56%
Inflation-Indexed Bonds	1.50%	3.44%
Broad U.S. Equities	26.00%	8.53%
Developed Foreign Equities	13.25%	6.83%
Emerging Market Equities	6.50%	9.95%
Private Equity	9.00%	12.40%
Hedge Funds/Absolute Return	12.50%	4.68%
Real Estate (Property)	2.00%	6.91%
Commodities	0.50%	5.45%
Global debt ex U.S.	5.00%	-0.25%
REIT	5.25%	5.63%
	100.00%	

**Discount Rate** - The discount rate used to measure the total pension liability was 3.98% as of June 30, 2016. The single blended discount rate was based on long-term expected rate of return on pension plan investments of 7.65%, and a municipal bond rate of 2.85% as of June 30, 2016 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipals bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 30% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2034. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2034 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the District's proportionate share of the Net Pension Liability to Changes in the Discount Rate - The following presents the District's proportionate share of the net pension liability calculated using the discount rate as disclosed above, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.98%) or 1-percentage-point higher (4.98%) than the current rate:

## Notes to Financial Statements For the Years Ended June 30, 2017

## **Note 11: PENSION OBLIGATIONS (continued)**

	Decrease (2.98%)	Г	Discount Rate (3.98%)	Increase (4.98%)
	 (2.5070)		(21,50,0)	(, 0, 0)
District's proportionate share of the				
Net Pension Liability and the State's				
Proportionate Share of the Net Pension				
Liability associated with the District	\$ 1,141,895	\$	931,868	\$ 758,472

## **Note 12: RISK MANAGEMENT**

The Soil Conservation District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters.

## **Property and Liability Insurance**

The District maintains commercial insurance coverage for property, liability, and employee dishonesty. Adequacy of insurance coverage is the responsibility of the District.

## **New Jersey Unemployment Compensation Insurance**

The District covers its employees on a cost experience basis under the New Jersey Unemployment Trust Fund by the "contributions" method. Under this method, a contribution rate is established annually for the District share of unemployment tax.

## **Note 13: RENTAL INCOME**

During fiscal year 2006-07, the District began renting office space to three Federal Agencies at \$9,304 per month. Rental space decreased from 6,047 square feet to 5,800 square feet during the 2009-2010 year and the rental charge per square foot was \$19.75 over the past year. Total rental income was \$119,625 for fiscal year end June 30, 2017.

## **Note 14: SURETY BONDS**

An honesty blanket bond in the amount of \$750,000 was maintained covering all district personnel handling cash with a \$2,000 deductible.

## **Note 15: REQUEST FOR AUTHORIZATION - (RFA)**

All storm water discharge associated with construction activity within the state of New Jersey incurs a fee payable to "Treasurer - State of New Jersey". A portion of the fee is due to the New Jersey Department of Environmental Protection, the remaining is split 70% and 30% to the District and State Soil Conservation Committee, respectively.

Notes to Financial Statements For the Years Ended June 30, 2017

## **Note 16: RESERVE FOR POST RETIREMENT BENEFITS**

The District Maintains a Post Retirement Benefit Reserve account, which covers its employees on a pay-as-you-go basis. Under this method, an annual provision is made and charged against the operating budget of the District. The balance as of June 30, 2017 is \$60,000.

## **Note 17: RESERVE FOR COMPENSATED ABSENCES**

All permanent, full-time temporary and full-time hourly employees are entitled to paid sick leave days. Sick leave days with pay are accumulated on the basis of fifteen paid sick leave days in every calendar year. Unused sick leave may be accumulated and carried forward for an unlimited period of time. Upon leaving employment, unused earned sick leave may be cashed in at one-half their value up to a maximum of \$15,000.

All full-time employees are entitled to annual vacation leave with pay. Vacation leave with pay is earned at the rate of one vacation day per month during the first calendar year of employment after initial appointment, twelve vacation days thereafter for every year and up to five years of service, fifteen vacation days after the completion of five years and up to twelve years of service, twenty vacation days after the completion of twelve years and up to twenty years of service, and twenty-five vacation days after the twentieth year of service. Unused vacation leave may be carried forward into the succeeding year only when approved by the District Supervisor, but not to exceed one year's allowance. Permanent pad-time employees are entitled to receive paid vacation leave on a proportionate basis. The District does not record accrued expenses related to compensated absences, but have instead been reserved. The balance in the reserve as of June 30, 2017 is \$60,000.

## Note 18: HYDRAULIC AND HYDRAULIC DATABASE

During 2012, the District entered into an agreement with the New Jersey Department of Agriculture, whereby the District shall provide data entry services of storm water basin design information, which has been collected on detention basin summary sheets since 1986. The NJDA has allocated \$15,340 to fund the District's participation in this project, of which \$7,670 was received in the 2012-13 fiscal year. During the 2014-15 fiscal year, the District completed this project and has reflected an accounts receivable for the remaining balance due from NJDA, in the amount of \$7,002. Based upon a contracted service agreement with Warren County Soil Conservation District, the District remitted the remaining balance of \$633 that they received from the NJDA in the 2015-16 fiscal year. There were no similar projects during the 2016-17 fiscal year.

## **Note 19: SUBSEQUENT EVENTS**

There were no material events between June 30, 2017 and September 18, 2017 affecting the financial status of the Burlington County Soil Conservation District.

## Note 20: NATIONAL FISH AND WILDLIFE FOUNDATION

On February 10, 2016, the District entered into an agreement with the National Fish and Wildlife Foundation (NFWF) to provide assistance with the installing multi-species crop mix and other practices included in the Natural Resources Conservation Service New Jersey Soil Health Initiative which will serve as demonstration farms to use as examples in a series of outreach and educational events. The District shall be reimbursed for allowable costs incurred as a result of this project for an amount not to exceed \$50,000. As of June 30, 2017, the District had a balance of \$460 due from the NFWF.

## Burlington County Soil Conservation District Comments and Recommendations For the Year Ended June 30, 2017

We have audited the basic financial statements of the Burlington County Soil Conservation District, County of Burlington, State of New Jersey for the year ended June 30, 2017. In accordance with requirements prescribed by the New Jersey Department of Agriculture's Financial Accounting Manual, the following are the *General Comments* and *Recommendations* for the year then ended.

## **COMMENTS**

## **Administrative Practices and Procedures**

Purchases shall be in conformance with the State Public Contracts Law for securing formal bids in excess of \$17,500 and on quotations for purchases over \$2,625, where it is possible to solicit more than one quotation. If there is a reason why quotations are not solicited, a brief explanation regarding this should be documented and included in the District minutes. For purchases, which are unusual or not routine in nature, a policy should be adopted addressing such purchases. Any suggested policy should be reviewed with the solicitor. In addition, when making purchases utilizing the state contract system, the award of such a contract shall be authorized by a resolution of the Board of Supervisors as required by N.J.A.G.5:34-1.2. No exceptions were noted.

Chapter 251 fees collected appear to be in accordance with the adopted fee schedule.

According to the revised Financial Accounting Manual for New Jersey Soil Conservation Districts, various internal controls must be in place and followed, in order to demonstrate that an appropriate control environment exists over disbursements by check. For example, checks issued in excess of \$1,000 must have two signatures. No exceptions were noted.

The Internal Revenue Service regulations require that Form 1099-M be filed for each unincorporated person to whom at least \$600 for services was paid.

No exceptions were noted.

## Financial Planning, Accounting and Reporting

In August 2015, a revised <u>Financial Accounting Manual for New Jersey Soil Conservation Districts</u> was adopted by the NJ State Soil Committee, which contained a new uniform budget format. The 2016-17 district budget was presented in the format prescribed by the revised financial accounting manual.

The <u>Financial Accounting Manual for New Jersey Soil Conservation Districts</u> indicates that, as of June 30, 1992, the accounting period to be used by all soil conservation districts was to be the same as that of the State of New Jersey.

## Computerized Accounting System

The District maintains a computerized accounting system on a cash basis. It is suggested that adjustments for other non-cash activity be periodically recorded.

## **RECOMMENDATIONS**

None.

## Status of Prior Year Recommendations

There were no prior year recommendations.

## **APPRECIATION**

We wish to express our appreciation for the assistance and courtesies rendered to us by the officials during the course of the audit.

Should any questions arise as to our comments, please do not hesitate to call us.
