

“Anything else you’re interested in is not going to happen if you can’t breathe the air and drink the water. Don’t sit this one out. Do something.”

– Carl Sagan

OBEY your city water restrictions from May to September

PLANT drought-tolerant grass

WATER your home garden and lawn with harvested rain water

REPLACE part of your lawn with native plants beds that need less water

AVOID outdoor recreation toys that require a constant stream of water

DON'T wash your car at home, a car wash uses less water and recycles it too

TURN OFF automatic lawn and garden sprinkler systems at the end of the growing season

COVER your pool when not being used to reduce evaporation

TURN OFF the faucet when brushing teeth, shaving or washing dishes

FIX that leaky faucet – One drop every 2 seconds wastes 2 gallons of water a day

CUT DOWN shower time to 5 minutes

RUN washing machines and dishwashers only when they are full

WASH fruits and veggies in a basin instead of under running water

INSTALL water-saving showerheads & faucet aerators in the bathroom & kitchen

STORE drinking water in the fridge instead of running the faucet for cold water

CHECK your water meter to detect leaks

**SAVE WATER
SAVE MONEY**

| | Water Saved (gallons) | Money Saved per year |
|---------------------------------------|-----------------------|----------------------|
| Install Low-Flow Showerhead | 7,665 | \$50 |
| Take 5 minute Showers | 76,650 | \$498 |
| Install Low-Flow Toilet | 10,986 | \$70 |
| Fix constantly running toilets | 73,846 | \$480 |
| Upgrade to high efficiency washer | 14,585 | \$94 |
| Use a faucet aerator, low flow faucet | 15,622 | \$100 |
